Welcome to the HEAJ

Dear student,

Welcome to the Haute Ecole Albert Jacquard (HEAJ) in Namur!

Thank you for choosing our university college to spend your study period.

Namur is a wonderful place to study and have a good time. Since December 11th, 1986, Namur has been the capital of Wallonia at the heart of the European Union and counts around 110.000 inhabitants. It's a small and safe city but nevertheless full of animations for students and young people.

The Haute Ecole Albert Jacquard is an international institution that offers you the best conditions to spend your study period. Our college and its programs meet the requirements of the Bologna process and of the Erasmus+ program. This guarantees to provide an ideal environment, with high-level teachers and innovative teaching approaches.

In this guide, you'll find everything you need to help you prepare your stay in Namur but also answer any practical question you might have in any domain during your study period in Namur, such as means of transport, cultural life, school organisation, administrative documents...

Be sure we'll do our best to put you in the best conditions and be at your disposal for any question you may have.

I hope you'll enjoy your stay in Namur and that your study period will meet your expectations.

Véronique Van Cauter
International Service Coordinator

Albert Jacquard (1925 – 2013) was a French geneticist, popularizer of science and essayist. He was well known for defending ideas related to science, degrowth, needy persons and the environment.

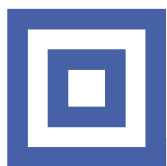

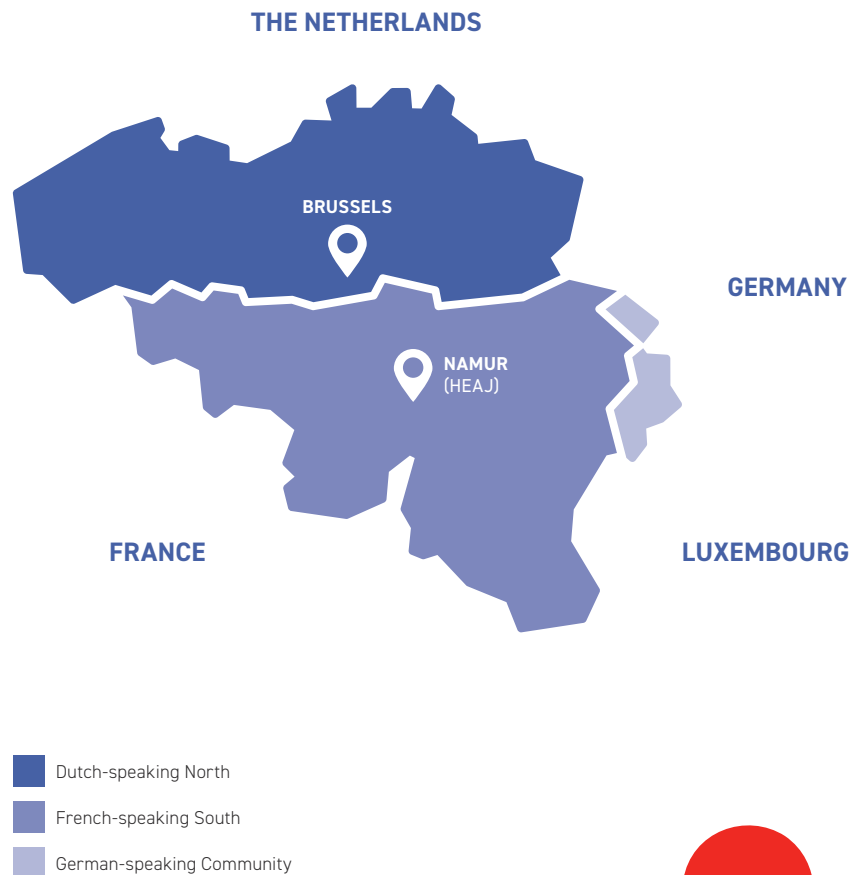

Belgium in a nutshell

LANGUAGES

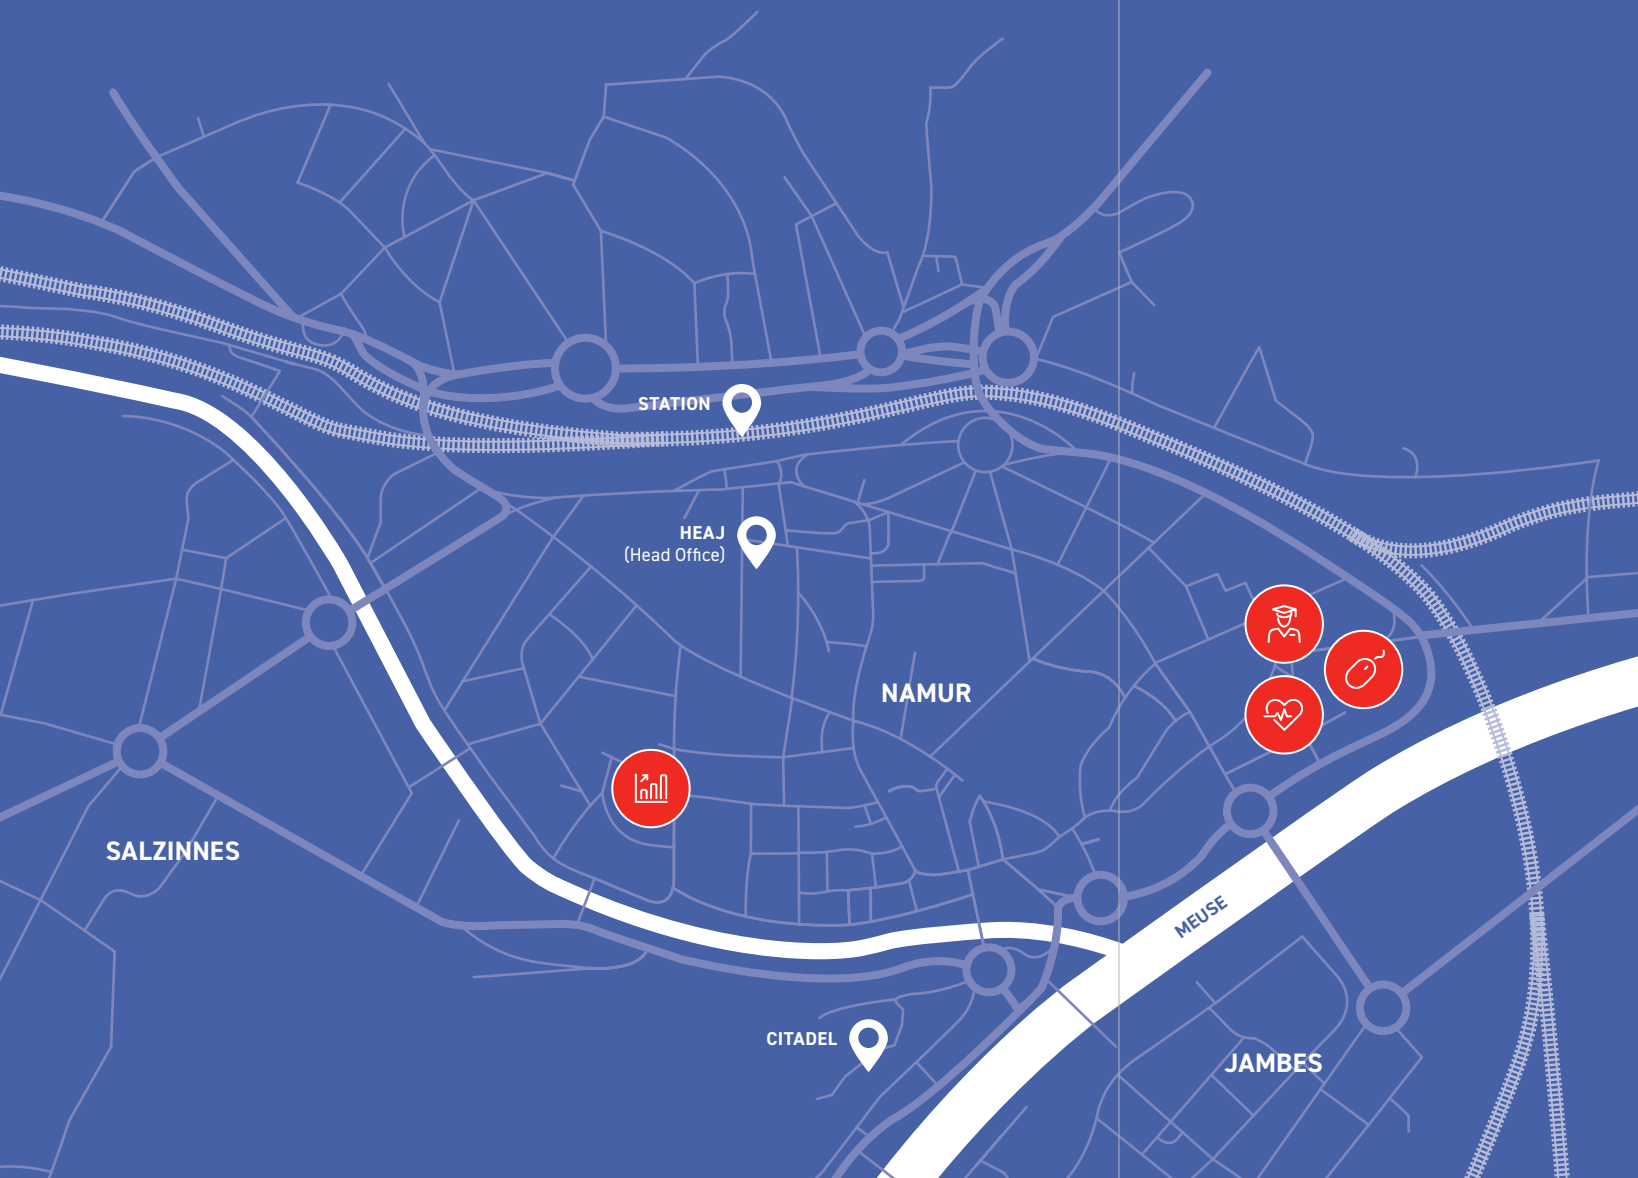

French, Dutch and German are Belgium's three official languages. An invisible linguistic border divides the country roughly into two parts: the **French-speaking South** and the **Dutch-speaking North**. There is also a **German-speaking community** along the German border. **Brussels** is an important bilingual entity (French-Dutch), with a majority of inhabitants who speak French. Apart from a few exceptions, the other regions are monolingual.

CLIMATE

The climate may not be the reason why you have chosen to study to Namur. Belgium is known for its changing skies. The weather is often unpredictable. Temperatures may vary widely from day to day. Winters are usually mild, and summers usually quite pleasant. Nevertheless, the warm personality of its inhabitants make up for it!

What are ECTS about ?

The ECTS system (**European Credit Transfer System**) mainly aims to promote transparency, to create the necessary conditions for cooperation between institutions and to enlarge the range of options offered to students. Its implementation by the institutions facilitates the recognition of students' academic results through the use of measurement units understood by everyone in the same way: «credits» and grades.

The ECTS system is based on three keys elements:

- Information about the course programmes gathered in an information package;
- A mutual agreement between the partner institutions and the student: the Erasmus bilateral agreement;
- A learning agreement in which the ECTS credits clearly appear.

The ECTS credits represent the workload supposedly needed in the form of a numerical value allocated to each course unit. They express the workload needed for each course unit necessary to successfully complete an academic year in the institution, i.e. lectures, practical work, seminars, work placements, research or field survey, self-study – in the library or at home – as well as examinations or any other assessment method. The ECTS is thus based on the global student workload and is not exclusively limited to attendance hours.

In the ECTS system 60 credits represent the workload for a year of study.

If you come from Brussels, take the E411 (Brussels-Luxembourg highway), take exit 14, follow the «Namur center» signs.

By train:

If you come by train, including Eurostar, you will arrive at Bruxelles-Midi (Brussels South). From there, you should take an Intercity train for Namur (line Arlon or Luxembourg). The journey takes about 1h.

By plane:

If you arrive at **Brussels Airport** (50 minutes from Namur): the train is the cheapest way of getting to Brussels, the capital city. A train leaves every 20 minutes from the airport terminal. You might have to change at Bruxelles-Nord (Brussels North) and take an Intercity (IC) train for Namur (or Arlon or Luxembourg). It takes about 1h15.

🌐 www.brusselsairport.be

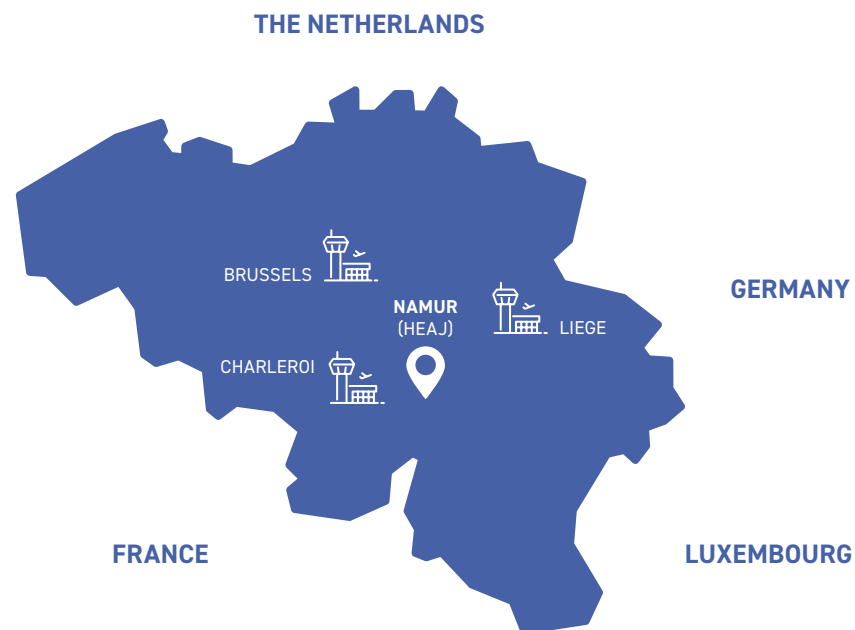

If you arrive at **Brussels South Charleroi Airport** (30 minutes from Namur): from there, a shuttle leads you to the station of Charleroi Sud (South Charleroi). From there, you should take an Intercity train for Namur or Ottignies (Direction Liege).

🌐 www.liegeairport.com

The institution is a 10-minute walk from Namur's station.

Insurance

Students are covered by the HEAJ's «civil responsibility» insurance, which covers all damage to persons or goods caused within the University if that damage is HEAJ's responsibility. Any other insurance is at the expense of the student.

Students who are EU residents are expected to go to a national health service facility, taking with them the national health insurance card available free of charge from your home country health fund. The HEAJ requires and assumes that all incoming international students have valid personal (travel) insurance from an internationally recognised insurance agency for the duration of their stay in Namur.

This insurance should cover all costs related to treatment of sudden illnesses, accidents and repatriation.

Your integration at the HEAJ

INTEGRATION WEEKS

The «Pôle académique de Namur», an organization gathering all higher education institutions of the area of Namur, organizes 2 integration weeks before the academic year.

These 2 weeks include French classes (generally in the morning) and activities to discover the Belgian culture, cuisine and heritage.

This will enable you to get to know Namur, your institution and meet other Erasmus students as well as improving your level of French before starting the real school year. For French-speaking students, the French classes are replaced by English classes. All information is available at: www.poledenamur.be

FRENCH COURSE

During the academic year, French classes are organized for foreign students in collaboration with the Pôle académique de Namur. The course objective is to help students in daily life situations and prepare them for attending lectures and taking exams in French.

The course lasts around 40 hours/semester and represents 3 ECTS credits per semester.

The students take a level assessment test during the first class so as to join the right group – beginner or intermediate.

At the end of the course the students take a test assessing their evolution in the different language competences and receive a description of their level in French based on the Common European Framework of References for Languages. The exam takes place during the last lesson.

WELCOME DAY AT THE HEAJ

Upon your arrival in Namur, you will be welcomed with all Erasmus students by the complete international team: the coordinator and the international representative of your department.

You will receive all practical information and documents in a specific folder designed for Erasmus students and make a «tour» of the different important buildings and services of our «Haute Ecole» and of your specific department. You will also meet your buddy student and some important staff members and be briefed about the academic organisation.

WELCOME PARTY

In addition to the welcome day for Erasmus students, the HEAJ also organises an international event where all foreign students, including fully-registered students, can meet and exchange with Belgian students and teachers. It's also a good opportunity to taste Belgian products and have a lot of fun!

TUTORING

The first days in a new environment are always difficult. You have to find your bearings, meet new fellow students, locate rooms and all sorts of necessary information... This necessary adaptation process takes time and energy.

Therefore, before coming to Namur, you will be put in contact with one or more HEAJ students who will help you get familiar with our university college and Namur's social life. This person will be accompanying you at the HEAJ before and during your stay and will guide you throughout your study period.

HEAJ GOES GREEN

Environment and climate action are key priorities for the EU now and in the future. The **European Green Deal Communication** recognises the key role of universities to engage with students and the wider community to become climate neutral by 2050.

In this scope, the HEAJ, promotes sustainable transport modes and more environmentally responsible behavior and aims to respect the «5R» principle: «Reduce, Reuse, Repair, Recycle, Refuse».

We'd like our incoming students to commit to respect the environment and these principles as much as possible to play a role in this «green» transition. Here are some pieces of advice to follow:

- Eat local, seasonal, loose and organic products as much as possible;
- Don't eat too much meat (not more than twice a week);

- Close windows, doors and switch off the light when you leave a room;
- Reduce and sort your waste by using the different bins at your disposal/avoid buying items in plastic packaging;
- Reduce your heating system to 19 degrees.

To get more information on how to live your **Erasmus life** while respecting the environment, you can visit this website:

🌐 www.greenerasmus.org

MOBILE PHONES

If you wish to use a mobile phone in Belgium you have to know that there are three main competing networks:

- Proximus:
🌐 www.proximus.be
- Orange:
🌐 www.orange.be
- Base:
🌐 www.base.be

You can buy a local simcard and calling credits in many shops or at the post-office. The logo of the network(s) is usually displayed outside.

INTERNET ACCESS

All departments are equipped with the wi-fi and you can be connected from nearly everywhere in the school.

Our school website is:
🌐 www.heaj.be

In the city of Namur, the connection is also very good and you can find a lot of free wi-fi in the center.

Namur is also part of a new project called « Namur Innovative City Lab » and 26 new Internet access points will soon be installed in the city center.

« L'Enjambée » was inaugurated in May 2020. This footbridge over the river between Namur and Jambes is another realization of the « Namur Innovative City Lab », a portfolio of pipeline projects financed by the European Regional Development Fund.
